December 2024

To All Our Wonderful Customers

PLEASE NOTE SHUTDOWN DATES AND THE ALLENS 50TH ANNIVERSARY

Our offices and workshops will be closing for the year-end shutdown on
19th December 2024 and reopening **6th January 2025**

We thank you for your support in the past year and look forward to working closely with you in 2025 in the supply, support, and training in dependable cutting-edge solutions.

2025 marks 50 years' service by Allens to PE, the Eastern Cape, SA and increasingly, sub-Saharan Africa.

To celebrate the 50th anniversary and promote Allen Short Courses in Radiation Safety and Technology, the candidate fee has been slashed by 50%. This should put the sought-after micro-accreditation within the reach of more school-leavers and professionals aiming to enhance their employment options.

Nuclear power and applications are the universal flavour of the future. Make 2025 the year of opportunity for you and your co-workers in industry, civil engineering, mining, education and research by registering for training now.

Should you have any questions regarding short courses feel free to contact us.

On behalf of the Allen Associates Team, we wish you and your family a safe and happy holiday period.

Best regards

Dave Allen

Member and CEO

Joined by Moira, Geoff, Anderson, Selwyn, Charl, Thermon, Tari, Tammy, Angela, Welcome, and Maria whom we thank for their dedication to attendance to duty!
